► **DEALER:**

► **TYRE: Vector⁴Seasons**

INNOVATION:

- SmartTRED design
- All-weather Silica tread compound
- V-shaped tread design and 3D waffle blades

*Tested against 2 leading competitors, in April 2008 by TÜV SÜD Automotive, Tyre size: 175/65R14; Car: VW Polo; Report #76230122-2

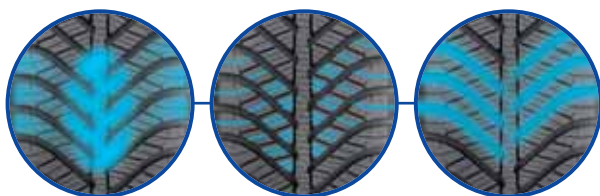

► TYRE: VECTOR 4SEASONS

LESS HASSLE

One set of tyres for winter and another when summer comes around ... Life is made much easier when you can confidently use only one set of tyres throughout the whole year. The new Vector 4Seasons tyre - with Weather Reactive technology - provides control in all kinds of weather. The tyre's new All-Weather Silica compound offers excellent summer and winter performance. The 3D waffle blades increase grip on snow and ice. SmartTRED activates different parts of the tread pattern to respond to different weather and road conditions.

WEATHER REACTIVE
TECHNOLOGY

And the V-shaped tread disperses water and slush to resist aquaplaning. The Vector 4Seasons tyre is marked with the "snow-flake" symbol which means that the tyre meets the industry standards of purely winter-classified tyres. The Vector 4Seasons is comfortable, economical and environmentally friendly to use - all year round.

SmartTRED design

3D waffle blades

V-shaped tread design

► TÜV SÜD AUTOMOTIVE TEST RESULTS ON SNOW, ICE & WET*

- **Snow:**
 - 5% more grip
 - 2,4% shorter braking distance
- **Ice:**
 - 5% more grip
 - 11% shorter braking distance
- **Wet:**
 - 4% better aquaplaning resistance

*Tested against 2 leading competitors, in April 2008 by TÜV SÜD Automotive, Tyre size: 175/65R14; Car: VW Polo; Report #76230122-2

Automotive

► FEATURES AND BENEFITS

FEATURE	ACTION	BENEFIT
SmartTRED	<ul style="list-style-type: none"> ■ Adapts to the road surface condition through performance specific tread zones 	<ul style="list-style-type: none"> ■ Optimum performance in all weather conditions
All-weather silica compound	<ul style="list-style-type: none"> ■ Ensures appropriate tread stiffness as a function of temperature and optimum grip on all surface types ■ Provides optimum tread wear ■ Low polycyclic aromatic oil content 	<ul style="list-style-type: none"> ■ Grip in all weather conditions ■ Mileage ■ Friendly to the environment
3D Waffle blades	<ul style="list-style-type: none"> ■ Provides high blade density while maintaining block stiffness 	<ul style="list-style-type: none"> ■ Increased grip in snow and ice; controlled wet and dry steering stability
V-shaped tread	<ul style="list-style-type: none"> ■ Water and slush dispersal 	<ul style="list-style-type: none"> ■ Resistance to aquaplaning
Tread block sequence and shifting	<ul style="list-style-type: none"> ■ Reduces noise 	<ul style="list-style-type: none"> ■ Quiet ride
Optimised tread contour	<ul style="list-style-type: none"> ■ Equalised tyre stress and load distribution 	<ul style="list-style-type: none"> ■ High mileage and low rolling resistance
